

Introduction

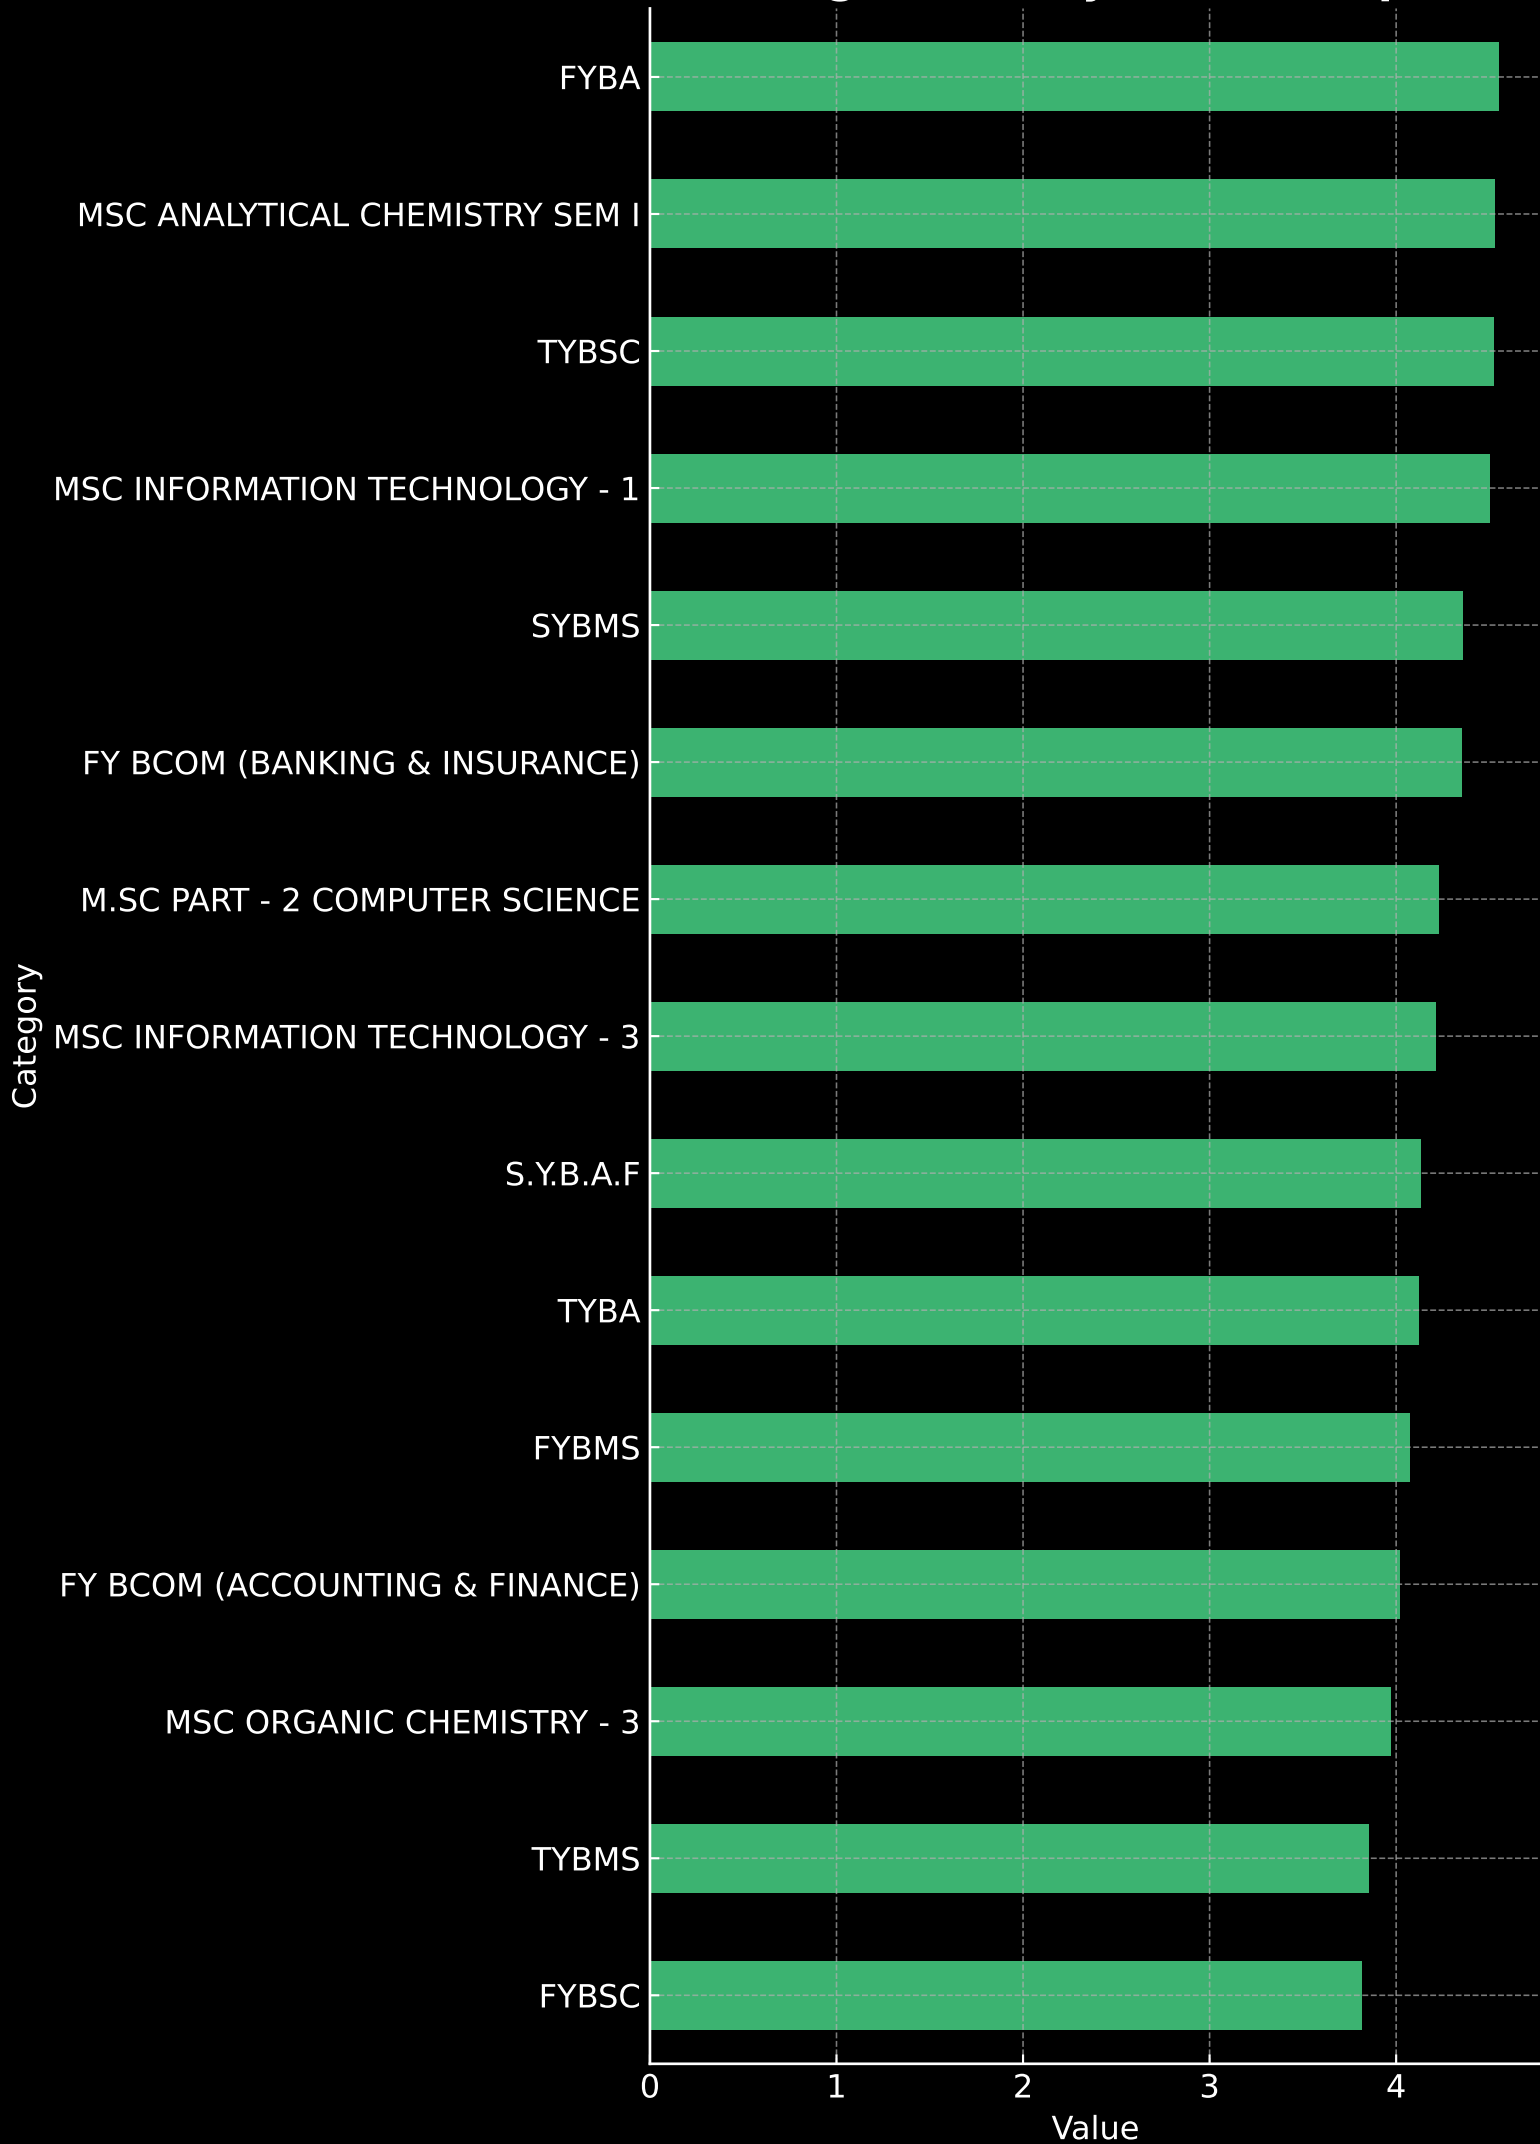

This report presents the analysis of the Student Satisfaction Survey conducted across various courses.

The survey aims to evaluate the quality of teaching, course content, and overall learning experience.

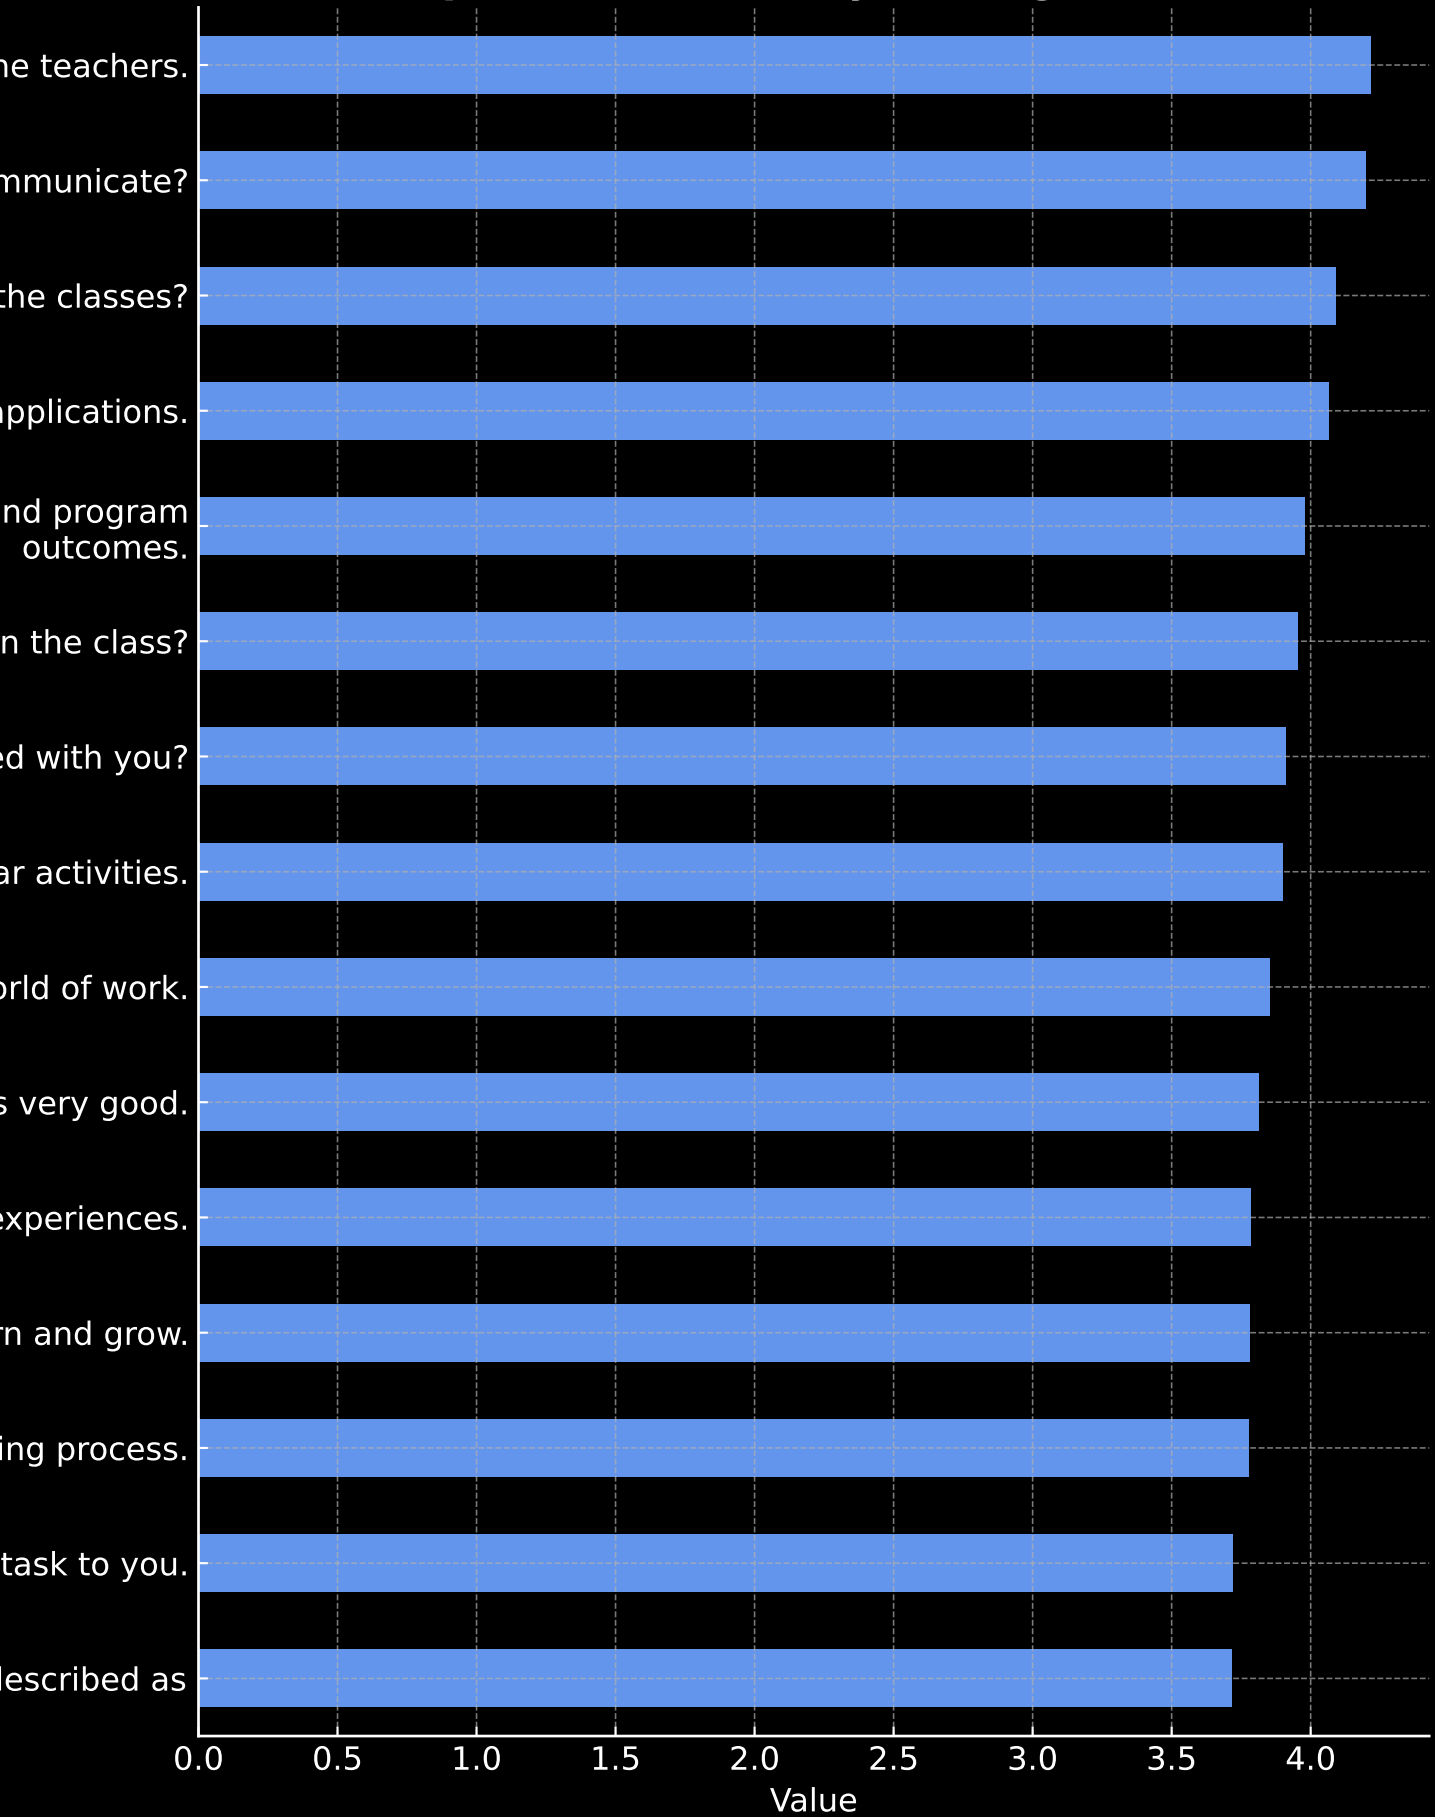

Insights include average scores, feedback distribution, and trends across different courses and questions.

The visualizations provide a comprehensive overview to help improve educational quality and student engagement.

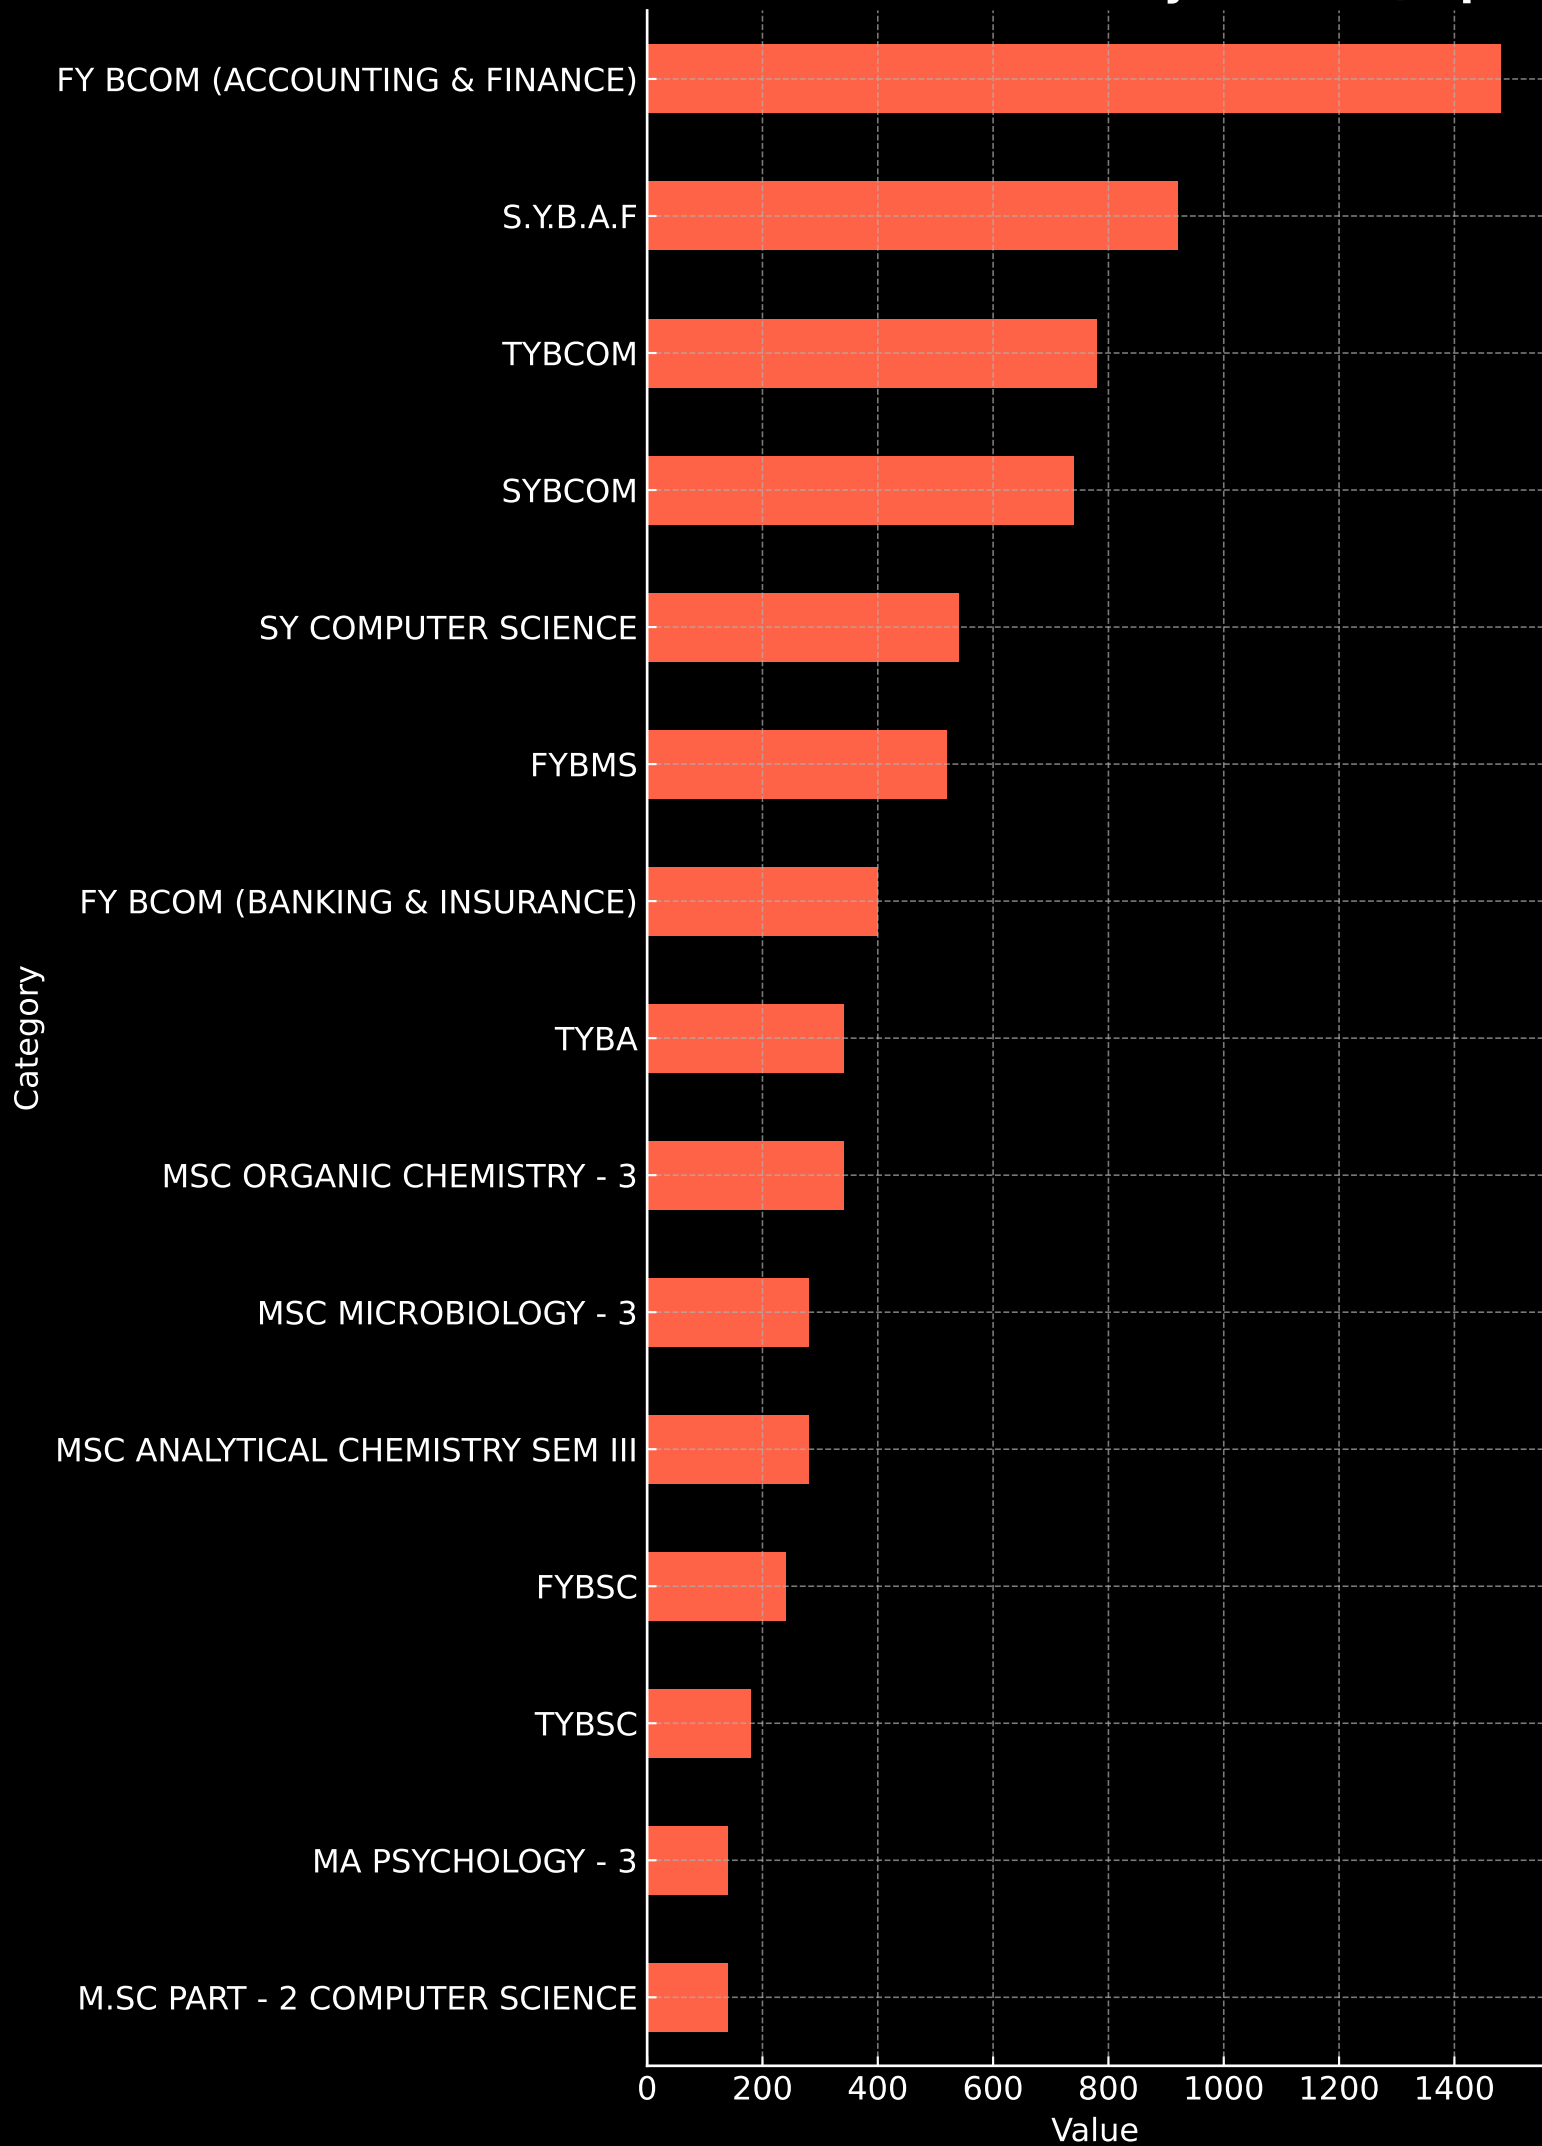

Average Score by Course (Top 15)

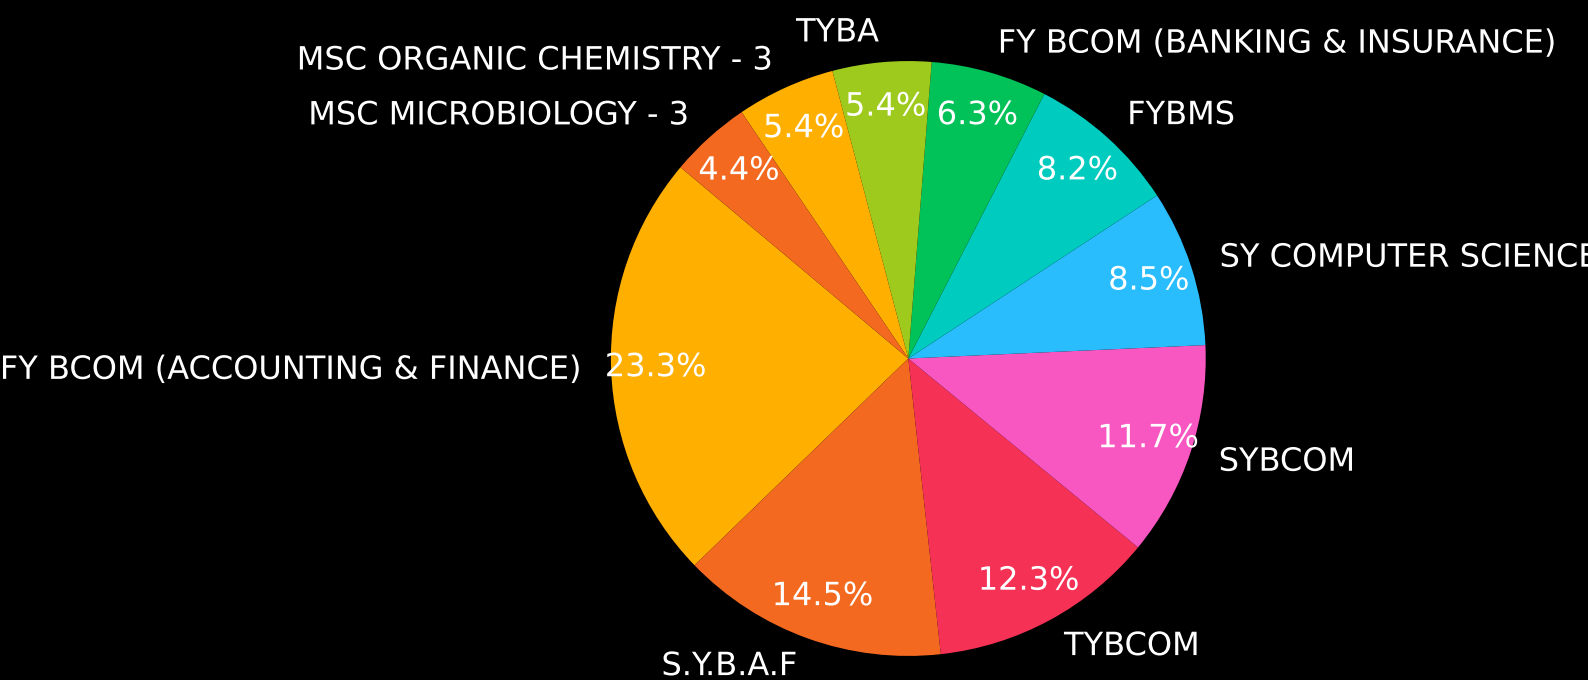

Top 15 Questions by Average Score

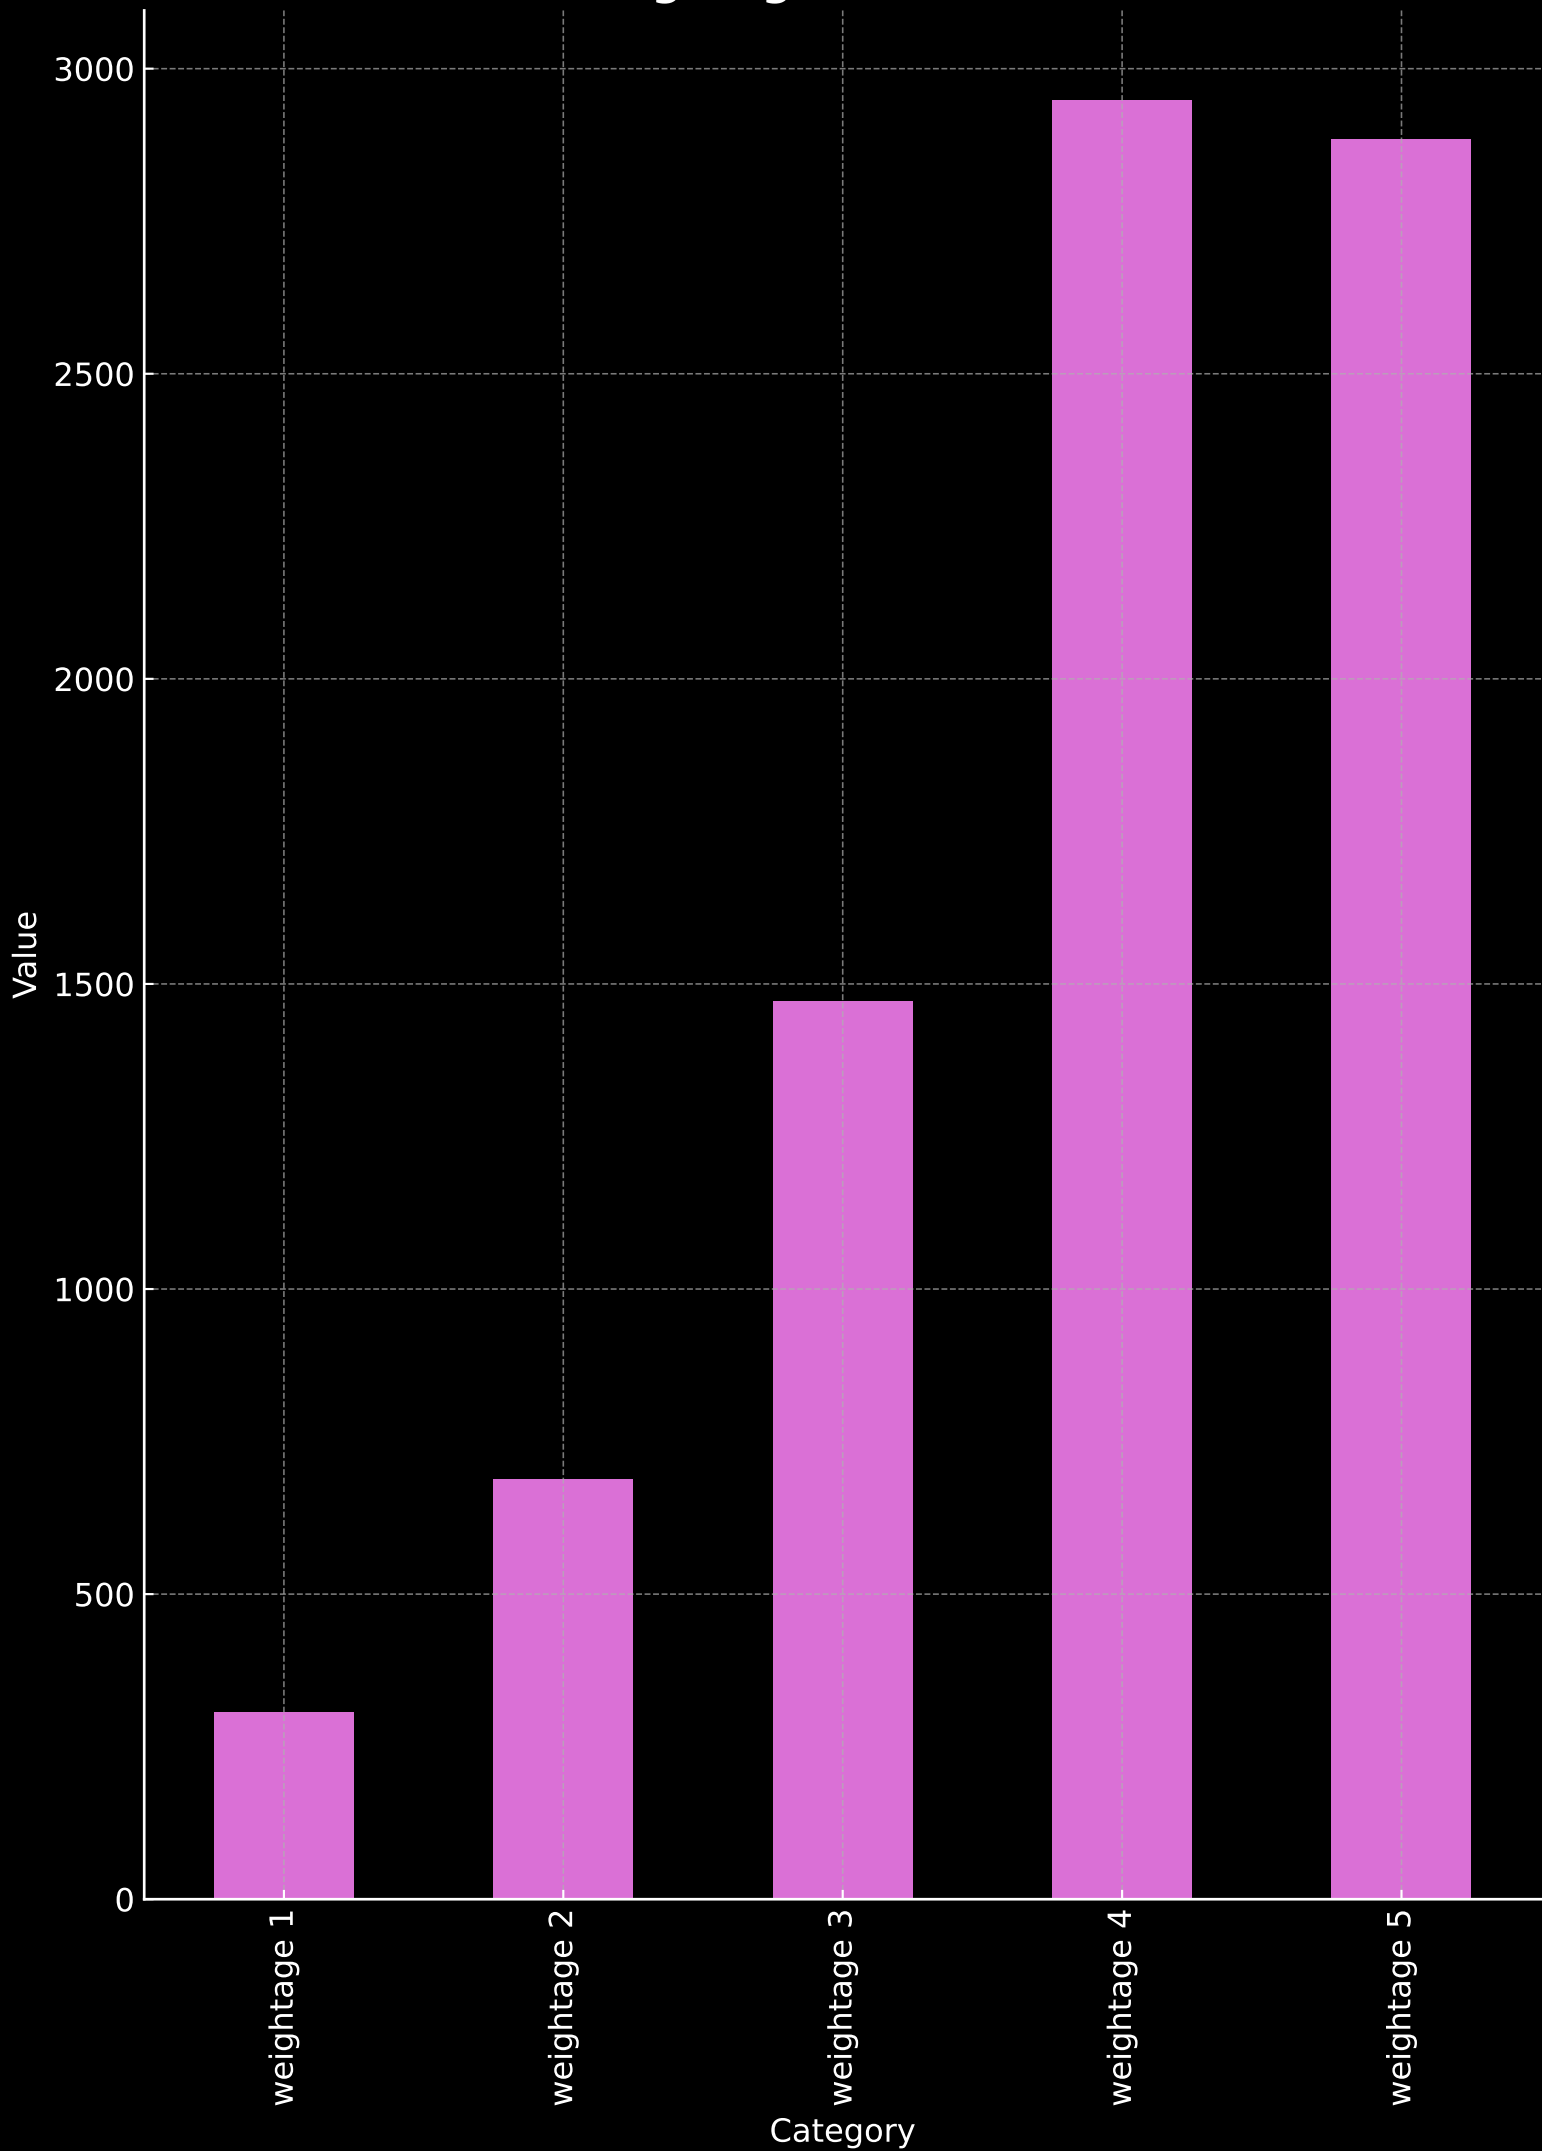

Total Feedback Given by Course (Top 15)

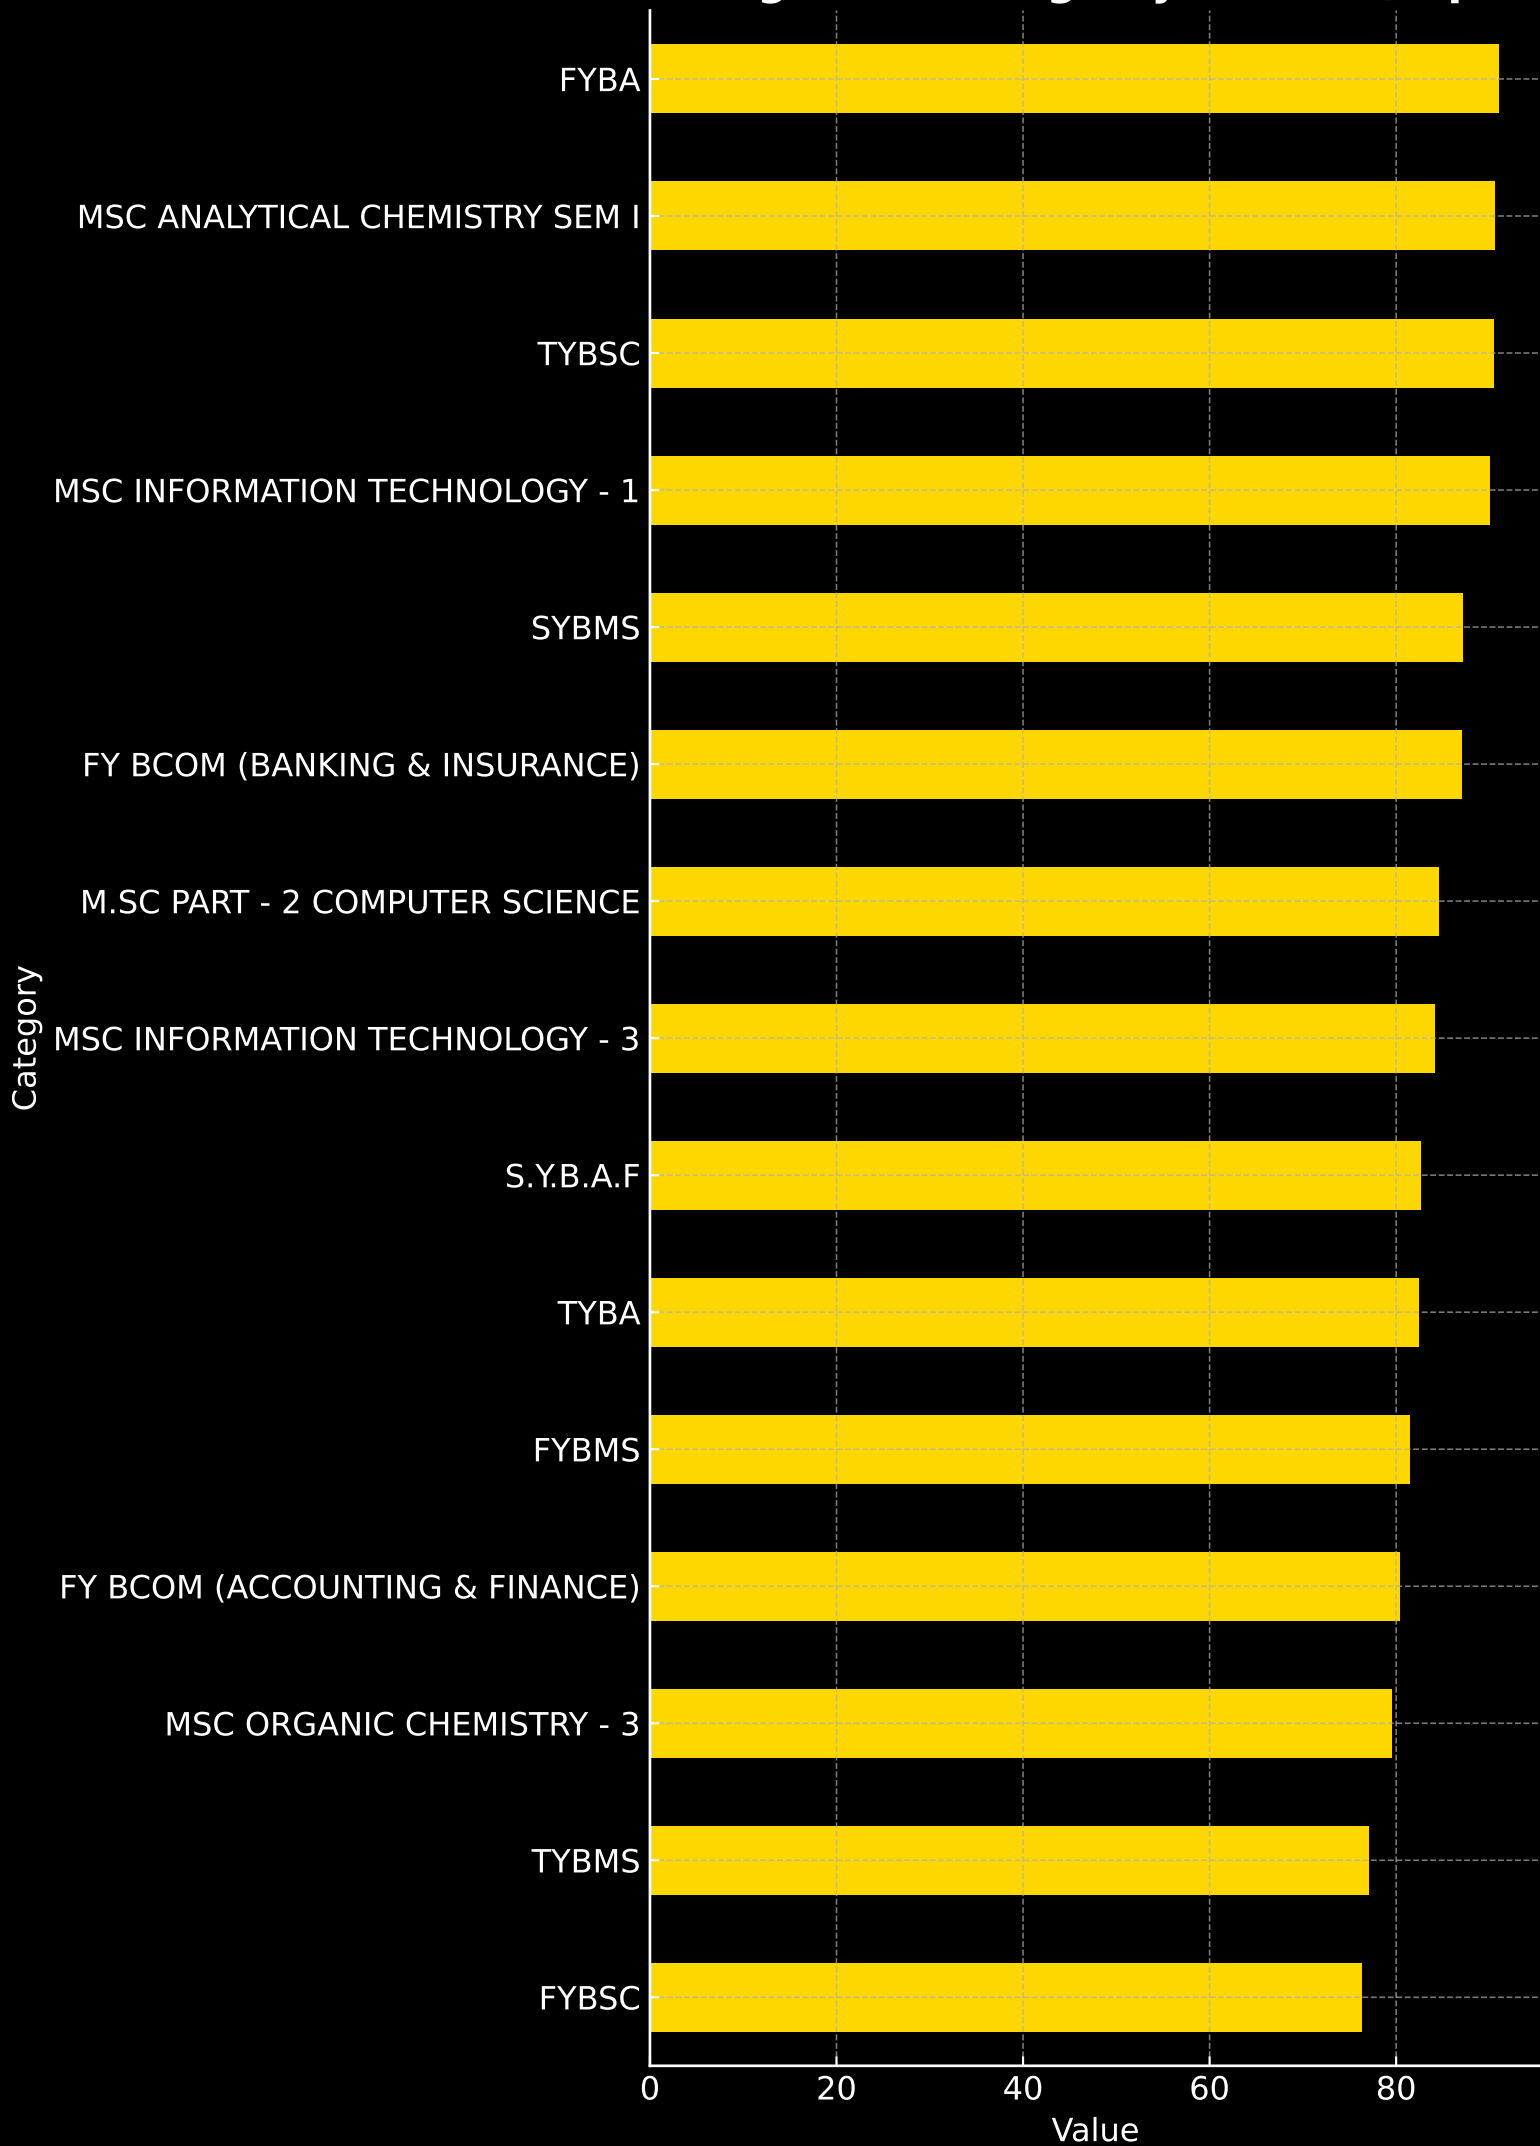

Feedback Distribution for Top 10 Courses

Weightage Distribution

Average Percentage by Course (Top 15)

Average Weightage by Question (Top 15)

Average Score and Percentage by SN
